

# OCE TEMPEST

SHIELDED ROOM

## SECURITY FOR YOUR INFORMATION AND ELECTRONIC EQUIPMENT

Metallic shielding is the most effective protection against TEMPEST attacks: an invisible threat that could be hitting you right now. Inside an **OCE-TEMPEST** room, your equipment and information are safe from these attacks.

**OCE-TEMPEST** is a solution that brings more robustness to your cybersecurity, ensuring the integrity and confidentiality of sensitive information.

### ABOUT OCE-TEMPEST

Customizable according to each client's needs, Ocellott's **OCE-TEMPEST** rooms are electromagnetically shielded environments, protecting electrical and electronic devices such as computers, cell phones, radars, wireless transmitters, peripherals, among others.

The **OCE-TEMPEST** rooms feature signal and power filters, air conditioning passages, raised floors for cable organization, and customized interface panels, with an electromagnetic shielding efficiency **greater than 100 dB (@ 1GHz)**.
